Background

SM System Controls was established in 1994 with humble beginnings. We started our business with an appointment as a sole distributor for MEANWELL power supply in Singapore till today.

Over the years, we have increased our product lines from supplying switch mode power supply to wiring accessories, ABS Box, IP66 metal enclosure, electrical circuit protection devices and much more.

Our goal is to provide a One-Stop shopping for all general electrical parts and accessories to all our supporting customers..
