Nature of Business

GROWA, established since 1993, is a multi-national industrial group providing total engineered lifting solutions through the use of standardised components to the industry. With over three decades of experience, *GROWA* has grown into the leader and the first truly total engineered solution provider for the crane industry.

Our business **designs, manufactures, installs and services** hoists, winches, cranes and the complete materials handling systems. The product range covers the complete spectrum of electromechanical hoisting equipment from light hoists to heavy industrial cranes capable of handling loads between 100 kilograms to 350 tonnes.

Our Corporate Mission Customer Satisfaction

Our emphasis has been made to attain the highest level of customer satisfaction through our technical expertise and after sales service. Further collaboration with our international distributors' network has enabled us to provide this benefit to all our customers.

Research & Development

Coupled with more than 30 years of market experience have resulted in the production of the most advanced and comprehensive range of hoists and cranes.

Company Profile

Customer Service You Can Trust

GROWA has been well known to serve industries since 1993. Our branch offices are strategically located in Malaysia, Indonesia & our distributors in South East Asia

Perfect Planning & Project Design

GROWA team of staffs are specialised engineers who are ready to develop a tailor-made solution to your specifications with our standard modules

Individual Consultancy

GROWA offers you the opportunity to discuss with our experienced specialists to find a solution that meets your exact demands

Expertise in Upgrading & Modifications

GROWA is created with the intentions of providing you with the very best deal with the state-of-the-art supplier

Your material handling partner

By partnering with *GROWA*, you are tapping into the services of one of the world leaders in the field of modern technology and you will profit from our alliances. *GROWA* has got a partner at your service close to you.

To be fast, direct, reliable around the world. This is the benchmark against which we assess our customer proximity, which is why we offer a comprehensive, internationally active network of sales subsidiaries, agencies and service branches. Wherever our customers are at work, we are there to offer efficient service.

Through a creative process in close cooperation with customers, our mutual visions and ideas are realized in the form of new and further developments. We seek active dialogue with end users, engineers and distributors, and we are receptive to new ideas, external stimuli and constructive criticism.

Certifications

GROWA holds the following certification

ISO 9001:2015 - Specifies requirements for a quality management system for any organisation that needs to demonstrate its ability to consistently provide products that meets customers and applicable regulatory requirements and aims to enhance customer satisfaction.

ISO 45001:2018 - Occupational health and safety management system

bizSAFE STAR - A five-step programme that assists companies to build up their Workplace Safety and Health capabilities so that they can achieve quantum improvements in safety and health standards at the workplace.

Product Range

HADEF

- ATEX rated electric chain hoist from 1,000kg to 50,000kg

Podem

- Electric wire rope hoists from 100kg to 50,000kg

RWM

- Electric chain hoists from 100kg to 7,500kg

Black Bear

- Air Chain hoists and trolley from 250kg to 50,000kg

REID

- Lightweight aluminium portable gantry and davit

IORI

- Electric and engine winches from 100kg to 1,800kg

TER

- Crane control equipment
- Pendant, joystick, worm gear, limit switch, rotating collector

NIKO

- Festoon system (stainless & galvanised steel)
- Light crane system
- Conveyor system

Cariboni & G.G.

- Continuous multi-conductor system (Busbar)

Metreel

- Spring and motorised reeling drums

SAGA

- Wireless radio remote controller with 4-6-8 buttons for monorail hoist, overhead travelling cranes

Past Project Works

- Fabrication of 0.5t - 5t davits for FPSO
- Supply of material handling packages to offshore FPSO & FSO with third party witness certification
- Refurbish of underhung and monorail cranes for FPSO
- Monorail cranes for pipe & cable laying vessel
- 10T X 22M span double girder gantry crane
- 5T Aluminium portable gantry & 20T lifting spreader beams
- 2T X 6M jib arm single girder pillar crane
- 3T X 400M wire rope electric tower winch
- 8T X 35M span cement grabber crane & hydraulic grab
- 1T transferable monorail hoist with PLC controls
- 16T X 28M span double girder electric overhead crane
- Stainless steel 316 bird screen with clamps for pipes
- 3T X 500M inverter winch
- 50T transfer car / rotator
- Material handling equipment for Wind Farms
