Keppel Offshore & Marine (Keppel O&M) is a world leader in providing total solutions to the offshore, marine and energy industries. Bolstered by a global network of yards and offices, it has extensive know-how across a wide range of capabilities – design & engineering, new builds, conversions & repairs, and support services.

A pioneer in offshore solutions, Keppel O&M has a strong track record in designing and building high-performance offshore platforms, production units and specialised ships. It is a trusted partner in the conversion, repair and modification of diverse and complex rigs and vessels and is also a developer of integrated solutions for the offshore renewable and infrastructure industries.

Backed by robust operational excellence, Keppel O&M innovates and leverages new technologies to deliver projects on time, on budget, safely, reliably, and to the highest quality.
